

Product Category:	Modem Solutions
Product Name:	Pequeno 3Plus Modem
Product Description (SHORT):	The Pequeno 3+ is a versatile and compact modem that can be used in a variety of applications, ranging from data-loggers to laptops.
Product Description (LONG):	<p>The Pequeno 3+ is a versatile and compact modem that can be used in a variety of applications. Applications range from data-loggers to laptops. The Pequeno 3+ has both USB and RS232 interface. CommAlive ! Technology monitors the GSM network connectivity status and will automatically power-cycle the modem if the modem loses the network connection. An open connection timer (DCD-MON) is also implemented and can be set to 45minutes (to prevent open data calls). 24H reset feature also resets the modem daily. Two LEDs indicate power, network connectivity and RS232 activity. The modem has intelligent power change-over between USB power and external DC power.</p> <p>The following list summarizes the features:</p> <ul style="list-style-type: none"> <li>✓ Low cost GSM/GPRS/EDGE/UMTS modem</li> <li>✓ High speed (7.2Mbps downlink and 5.76Mbps uplink)</li> <li>✓ Dual SIM (with auto fail-over)</li> <li>✓ Comm Alive Technology ensuring the modem is always registered on the network</li> <li>✓ USB and RS232 Interfaces</li> <li>✓ Optional external power supply</li> <li>✓ External SMA antenna connection</li> <li>✓ DCD Monitor to prevent data-call lock up</li> <li>✓ Daily self-resets</li> <li>✓ LED indications for network and RS232 activity</li> <li>✓ Windows, Linux and Android drivers available</li> <li>✓ Chip SIM ready</li> <li>✓ DIN Rail mountable</li> </ul>
